

1. How can we improve this?

You can point out details and give comments for improvements.

- From what I've noticed it is too plain for an invitation card. The first thing I wanted to improve upon is the color, the feeling it gives when you receive it. Then, the spacing and capitalization of the content because it is somewhat confusing when you read it, yes, it is straight forward but the visuality of it just doesn't look right. In my opinion, when giving out invitation card you kind of get a glimpse of what occasion is about by the theme of card and with that if you put effort on the little things like these cards, people will automatically think you really prepared for such an event. In addition, always highlight the important information and do not leave out important details like contact information.

2. What would be the objective function?

Tell me what the passage is all about. What is the objective?

- My takeaway from this is that the card is a wedding after dinner party invitation, and that the invitation is only given to close acquaintances and family. Moreover, it is to somewhat persuade this people to attend.

3. Create your own design/version of the passage.
